Retrofit and market incentive tables updated for additional clarity – Units for rates of payment added to Non-Prescriptive Lighting System Retrofit Incentives. Lines split on TLED Market tables for clarity of changes to classifications.

Changes to Wattsmart Business Program in Utah

As part of the Company's efforts for continual improvement, Rocky Mountain Power made changes to the Wattsmart Business program in Utah, effective July 11, 2025. As summarized in the tables below, these changes include adjusting lighting offerings throughout the Program due to state code changes and market conditions. **Any incentive amounts for current Program offerings that are not mentioned in the tables below will remain unchanged.** If you have questions or need additional information, please call toll-free 1-866-870-3419 or email us.

*Incentives may be capped based on project size. Project caps are subject to adjustments as needed to ensure the effective operation of the program.

It is the Company's intent to make ongoing adjustments to the incentives for certain measures in response to market conditions (changes in material costs, product availability, price competition, etc.), and to stay in alignment with the Company's defined savings targets, incentive budget, and cost effectiveness requirements.
